Summer Assignment

Go to the following link and complete the online handout. You can use the internet to find and answer the questions. The assignment is due on or before the first day of school. You must put your name in the name box the period and email are not necessary. This will be counted as a test grade. If the assignment is late there will be a 5 point per day deduction for each day up to 20 days which would equal a zero. Good Luck and see you in August.
