

# Financial Management Summer Assignment 2010

**Instructor:** Mrs. Marie Kasperski [mkasperski@comcast.net](mailto:mkasperski@comcast.net)

When is this assignment due?

The following assignment is to be completed and handed in on **WEDNESDAY, September 8<sup>th</sup>, 2010**. Any questions about the assignment should be directed to Mrs. Kasperski at [mkasperski@comcast.net](mailto:mkasperski@comcast.net).

## Note to the student:

We will begin our Financial Management class with a resume writing workshop. You will work on the background information as your summer assignment.

Please read each section and gather and keep all materials in a folder or binder. You will be expected to have all materials when we begin school in August.

### Step 1: Choose a College Major.

You should think about what you can see yourself doing as a career and select the college study that you will need to achieve that goal. You must select only one major. Gather information on this major. Sunday paper help wanted ads, school curriculum, etc.

### Step 2: Choose a College to attend.

You need to consider all of your options. Select a college that you have some interest in. You are selecting this school to complete this project with so it only makes sense to pick a school you actually have interest in. Pick up a catalog on the school and a copy of the application. Be sure you have official information on tuition, room and board, and misc. costs.

### Step 3: Candidate Criteria

What are the requirements for acceptance to this school? Attach any paper work from the college related to this.

### Step 4: Create a Budget

List all of the expenses associated with this school. What is the annual tuition, room and board, food, books, and computers, etc. Attach a copy of the official college costs to this preliminary budget.

### Items to be collected:

All of this information should be gathered, organized and a copy of the budget, resume and cover letter should be typed and ready to be handed in on **09/08/2010**. Please keep all of the other information in a folder or binder. I will be reviewing that within the first few weeks of school.

# Have a safe and happy summer!
